SUMMARY

Full stack JavaScript developer with an extensive background in game audio & audio implementation. I pride myself on being a quick and active learner who loves picking up new stacks and technologies. Building high quality tools and user experiences is my passion.

EDUCATION

2016

CODE FELLOWS

Advanced Software Development in Full Stack JavaScript

2008 – 2011

BERKLEE COLLEGE OF MUSIC

Bachelor of Arts in Film & Game Scoring

EXPERIENCE

MAY 2016 – SEPTEMBER 2016

LEARNBIG

Developed, implemented, & tested a web-based eLearning platform using a proprietary JavaScript framework along with Node.js and a variety of open source modules. I also worked closely with post-production, content, and design teams to ensure that all of their goals were being realized and represented as intended.

2012 – PRESENT

MOSAIC MUSIC

Freelance music composition, sound design, & tooling.

2011 – 2012

FBP SOUND

Developed a sample library using odd instruments. Tasks including sampling, sound design, synthesis, KSP scripting, and tooling in Max/MSP.

SKILLS

WEB DEVELOPMENT

JavaScript (ES5 + 6), React, Angular, jQuery, HTML, CSS, Node.js, Express, Koa, MongoDB, Mocha, Chai, Gulp, & Webpack

OTHER

Azure, Agile methodologies, & Git
