## Profile

Full-stack JavaScript Developer with an Audio Background.

## Technical Skills

## Projects

### Job Search Assistant

- MEAN stack database and interface that allows users to create and manage their job applications, interview, and appointment dates
- Created with mongoDB, AngularJS, Express, and Node.js

### Text Based Story and Editor

- “Choose your own adventure” style story and editor
- Each choice made during story telling renders a change in presentation, giving the story a much more interactive and immersive feel
- Created with mongoDB, AngularJS, Express, and Node.js

## Experience

### Freelance Audio for Film & Games

2012-2015

- Created interactive scores and dynamic sound design for over 20 titles
- Developed tools for prototyping dynamic audio with MaxMSP and Pure Data
- Created instruments with Kontakt using KSP, Kontakt’s native scripting language

### FBP Sound

2011

- Assisted in building instruments using KSP
- Created tools to prototype dynamic soundtracks using MaxMSP and Pure Data

## Education

### Code Fellows, Seattle, WA

2015

- Certificate (JavaScript, Node.js, AngularJS, Ionic, SASS)

### Berklee College of Music, Boston, MA

2008-2011

- Bachelor of Music in Film & Game Scoring
- Dean’s List 2008-2011
